

THE MARION DAILY STAR.

VOL. XII NO. 124.

MARION, OHIO, SATURDAY, APRIL 6, 1889.

PRICE, 3 CENTS.

OHIO'S ONLY LIFE

Insurance - Company.

Letter of Hon. Henry Mack State Senator from Cincinnati.

Cincinnati, O., Jan. 19th, 1889.
To the Union Central Life Insurance Co., of Cincinnati, O.:

GENTLEMEN:—
I take pleasure in acknowledging the receipt of Ten Thousand and Eighty-Four Dollars (\$10,084 \$1), the same being in payment of my Policy, No. 7856, for \$10,000, issued August 16, 1871. I was among the first of your members to take a Policy on the Late Rate Endowment Plan, and I have thus made eight-
een full payments at the Ordinary Life Rate, charged by you and other companies, and by leaving my dividends and profits with the Company, instead of using them to decrease the annual payment, my Policy has become an Endowment, and I have received the full Ten Thousand Dollars, an excess of \$81.84.
I can cheerfully recommend the Union Central and its officers, whom I have known personally for many years. I am now beyond the age of insurance according to the law of Ohio, otherwise I should be pleased to take out another Policy, as I can only speak in the highest terms of the Company's fair and honorable dealing, and its kindness and courtesy to me. As a citizen of Cincinnati, I am proud of the great success that the Union Central has made, and the prominent place it now occupies among the largest and best companies in the United States.

I am Yours Very Respectfully,
HENRY MACK.

West Liberty, Ohio.
December 30th, 1888, I took out a \$4,000 Policy on my life, through J. E. Heflinger, General Agent for the Union Central Life Insurance Company, of Cincinnati, O., on the 20 year Endowment Plan.

December 31st, 1888, I received the money from the Company through the same agent that insured me. It has not only proven good protection to my family, in case of death, but has been a good savings bank, and investment besides. I wish to say that I have received nothing but kind and courteous treatment from the Company all these years, and can recommend it as a good, reliable institution, of financial stability, worthy of public confidence.

A. G. WILLIAMSON,
West Liberty, Logan Co., O.

Why is the Union Central Life doing so much more business than many of its old Eastern competitors?

Because Ohio's insurance laws are more strict than those of any other State in the Union.

Because there is not a cent of her money invested in fluctuating bonds or stocks, but all must be loaned on Real Estate, worth double the amount of the loan, or Government bonds.

What State compels an examination of its companies, each year, by the Superintendent of Insurance?

Ohio.

What State never had one of its own companies fail, or in the hands of a receiver, and never had a policy holder in one of its own companies lose a dollar of his insurance?

The State of Ohio.

The advantage of doing business with a home company and home agents is apparent to all.

SMITH & CARSON,
AGENTS.

Office with Geo. D. Copeland, Marion, Ohio.

Carefully Culled From Choice Selections.

THE COAST DEFENSE VESSEL

It Will Probably Be Built By The Union Iron Works of San Francisco—Several Prominent Appointments Made—Washingtonians Going to Oklahoma—Other Interesting Dispatches.

WASHINGTON, April 6.—It is generally thought at the navy department that the contract for building the new armored coast defense vessel, for which bids were opened on Monday, will be awarded to Union Iron Works of San Francisco. Mr. Scott's bid was for about \$1,025,000, guaranteeing all that the specifications required, against a bid of \$1,611,000 from the Cramps, making several important modifications and refusing to guarantee the horse-power specified in the contract. The extra \$14,000, it is thought, will stand in the way of the acceptance of the bid, inasmuch as Scott guarantees everything and Cramp practically nothing.

It is understood that Mr. Charles Hanna, president of the firm, left for home after telling several people that he gave up hope of getting the job.

The New United States Treasurer.
WASHINGTON, April 6.—Mr. Huston, the newly-appointed United States treasurer, will probably not take charge of the office for several days. He called on Comptroller Burman last night, who informed him of the formalities of the filling of his bond, and furnished him with the necessary blanks. Mr. Huston said he would send his agent out to Indiana at once to secure his securities. The bond required is for \$150,000. Treasurer Hunt is still in New York, where he went to take charge of the subsidiary during the period between the death of Judge McCulloch and the qualification of Mr. Roberts.

A Colony in Oklahoma.
WASHINGTON, April 6.—A movement was put on foot recently to start a township in the Oklahoma country to be peopled with Washingtonians. Assurance is now had that one hundred ex-Union soldiers will join the movement, and applications have come in so rapidly from department clerks it has been found necessary to limit the membership in the colony. The advance guard will start on the 20th on a special train to be made up by the Baltimore and Ohio railway, and filled with delegates from Washington, Baltimore, Philadelphia and other cities.

Knew Nothing of His Nomination.

WASHINGTON, April 6.—Robert T. Lincoln, minister to England, said in an interview Tuesday morning that he would start for his post in about six weeks. Speaking of the suddenness of his appointment, Mr. Lincoln said that the first intimation he had that his name was under consideration was when he received a telephone message from a Chicago newspaper office, asking if he would accept the position. At that time the nomination had been sent to the senate.

Railway Mail Service Appointments.

WASHINGTON, April 6.—General Superintendent Bell has appointed the following assistant superintendents in the railway mail service: W. H. Lamb, of Missouri; W. C. Hickman, of Kansas; J. S. Smith, of Wisconsin; vice J. J. Moss, of Iowa; W. R. Lapham, of New York; has been appointed acting chief of the stationary division interior department, vice L. C. C. Lamar, Jr., of Texas, resigned.

Our Trade With Chile.

WASHINGTON, April 6.—James W. Roney, consul at Valparaiso, in reporting to the department of state upon the trade and commerce of Chile, comments upon the fact that, while the imports into Chile in 1887 amounted to \$18,000,000, and that while over 1,000 vessels entered and cleared at Chilean ports, the American flag waved over only 221 of them.

The Yorktown Accepted.

WASHINGTON, April 6.—The secretary of the navy has formally accepted the gunboat Yorktown, now at the League is, 131 heavy yard. The acceptance was in the subject to the special resolution of \$24,000 and two other resolutions, one of \$5,000 and the completion of the electric lighting plant, and the other of \$2,500 for six spare propeller blades.

Paced Post Convention Signed.

WASHINGTON, April 6.—Postmaster General Williamson has signed a paced post convention with the Leeward Islands. The convention was negotiated by Mr. Bell, superintendent of foreign mails, on behalf of the United States, and by Mr. Booth, British chargé d'affaires, on behalf of the British government for the Leeward Islands.

The Atlanta.

WASHINGTON, April 6.—The cruise of Atlanta, now at Aspinwall, has been ordered by telegraph to New York. Although subject to future emergencies, it is the present intention to send the Yorktown to New York on the 20th, so that the latest efforts at naval construction may be seen at the centennial celebration.

Germany's Power for Samoa.

WASHINGTON, April 6.—The German corvette "Sophie," which sailed from Zanzibar for Samoa yesterday, is far superior to either the Richmond, the Adams or the Alert, the United States vessels and real to Asia. She carries fourteen heavy modern guns, uses forced draught and has a speed of fifteen knots.

A Patent Office Appointment.

WASHINGTON, April 6.—Patent Commissioner Mitchell has, with the approval of Secretary Noble, appointed Henry Durfee, of Virginia, chief clerk of the patent clerk of the patent office, vice Lipscomb, resigned. Mr. Durfee occupied the same position under the last Republican administration.

At the White House.

WASHINGTON, April 6.—Besides the usual congressional callers there were few persons of distinction at the executive mansion yesterday. The cabinet met at 12:30 o'clock with all the members present except Secretary Tracy, who is in New York attending Judge McCulloch's funeral.

Washington Notes.

The test of the pneumatic gun carriage at Annapolis has been postponed.
Charles R. Faulkner, of Indiana, chief of the record division pension office has resigned.
The United States steamship Atlanta has been ordered by telegraph to proceed from Aspinwall to New York to participate in the Washington centennial inauguration ceremonies.

Special Thanksgiving

President Harrison Issues His First Proclamation.

CENTENNIAL OBSERVANCE.

The President Recommends That April 20, the Date of the Centennial of the Inauguration of President Washington, Be Observed as a Day of Special Thanksgiving.

WASHINGTON, April 6.—President Harrison has issued the following proclamation recommending April 20 next, the date of the centennial celebration of the inauguration of President Washington, as a special day of thanksgiving to God:

"A proclamation.
"A hundred years have passed, since the government, which our forefathers founded was formally organized. At noon on the 20th day of April, 1789, in the city of New York, and in the presence of an assemblage of the heroic men whose patriotic devotion had led the colonies to liberty and independence, George Washington took the oath of office as chief magistrate of the new born republic. This important act was preceded, at 9 o'clock in the morning, in all the churches of the city, by prayer for God's blessing on the government and its first president.

"The centennial of this illustrious event in our history has been declared a general holiday by act of congress, to the end that the people of the whole country may join in commemorative exercises appropriate to the day. In order that the joy of the occasion may be associated with a deep thankfulness in the minds of the people for all our blessings in the past and devout supplication to God for their gracious continuance in the future, the representatives of the religious creeds, both Christian and Hebrew have memorialized the government to designate an hour for prayer and thanksgiving on that day.

"Now, therefore, I, Benjamin Harrison, president of the United States of America, in response to this pious and reasonable request, do recommend that on Tuesday, April 20, at the hour of 9 o'clock in the morning, the people of the entire country repair to their respective places of worship, to implore the favor of God that the blessings of liberty, prosperity and peace may abide with us as a people, and that his hand may lead us in the paths of righteousness and good deeds.

Removal of Another Pipe Line.

TOLLEDO, O., April 6.—It is reported here that the Standard Oil company has been badly engaged of late in leasing additional territory in the Ohio oil fields, and intends to build an eight-mile pipe line to extend from Cuyahoga to Cleveland, where the Ohio product will be refined and put upon the market side by side with Pennsylvania oil. Agents of the company are, it is said, leasing land for the right of way. The line will be over 100 miles in length.

Stricken With Paralysis.

BROOKLYN, N. Y., April 6.—Mayor John W. Hunter suffered a stroke of paralysis yesterday, one side of his body being completely paralyzed. There is some hope that the effects will not be immediately fatal. Mr. Hunter is 81 years old, was auditor of the custom house for many years, was elected to congress in 1875, and again in 1877, was mayor in 1871, and is now president of the Dime Savings Bank.

Removal of Old Times.

TOLLEDO, O., April 6.—Ankin Prater was a slave in Tennessee with a slave wife who he deserted when freedom came. He came to Toledo, married again, accumulated property and died. His slave wife and son George are contesting the title to the estate with his last wife and his daughter Mary. The case hinges on the validity of slave marriages.

A Horse Dealer Beheaded.

NEW YORK, April 6.—Friedrich Friederichsen, a prosperous horse dealer from Hamburg, Germany, was robbed of \$1,200 while asleep in Brock's hotel, Hoboken, last night. A man who registered as William R. Lewis, and occupied the next room to Friederichsen, and who was missing this morning, is supposed to be the thief.

Indiana Bill Legislature a Tie.

INDIANAPOLIS, Ind., April 6.—The town of Foster elected a senator and representative yesterday, both Republicans, which makes the legislature a tie on joint ballot. Senate Republicans, 21; Democrats, 10; House Republicans, 31; Democrats, 37. There are fourteen more postponed elections to be decided.

Almost an Epidemic of Smallpox.

WILKES-BARRE, Pa., April 6.—A number of new cases of smallpox are reported at Nanticoke, and there is considerable alarm among the 15,000 inhabitants. The council has been requested to close the schools and places of amusement. People who can afford to do so are leaving town.

A Steamship Overrun.

NEW YORK, April 6.—The steamship Leerdam, which left Amsterdam, March 19, has not arrived here, though her sister ship, the Obdam, which left four days later, arrived yesterday. It is supposed that some of the Leerdam's machinery has broken down.

Sporting Dispatches.

The Result of Two Desperate Prize Fights

BY QUEENSBURY RULES.

The Two McCarthy's Meet and Fight Six Rounds on Long Island—A Desperate Four-Round Fight at Shamokin, Pennsylvania.

NEW YORK, April 6.—The bantam-weight fight for the championship of America, between Cal McCarthy, of Jersey City, and Matthew J. McCarthy, of Philadelphia, took place yesterday evening on Long Island, at a noted sporting resort. The principals have been in training for the past six weeks. Matt McCarthy, under the mentorship of Ed. Halse, and Cal McCarthy, under the guidance of Tom Collins. The articles of agreement stipulated that they should weigh in three hours before entering the ring, which they did within the prescribed limit, 117 pounds.

The affair, which has been on the tapis for the past week, was conducted with the greatest secrecy, only those who had tickets, for which they paid \$15 apiece, was admitted. A. E. Canale, son of the Venezuelan minister to this country some years ago, and who has taken an active part in athletics for the past five years, looked after Cal McCarthy's financial interests. Cal McCarthy is the undisputed bantam-weight champion of America, having won four skegole fights to a finish, beating Hornslocker, Gerry, Walton and Matt McCarthy. The latter was unable to stay six three-minute rounds. The affair has looked queer from the start. Halse's test of Matt, with the "Harlem Spider," Tommy Kelly, sometime ago being considered a device to influence betting. Cal weighed 114 pounds and Matt, 112 pounds. The former's seconds were Tom Collins and Jack O'Hara, the latter's were Halse and Finney. Al Smith was referee.

In the first round Matt, pumiled several blows, and finally there was a hot exchange. His ending in Cal getting in a good start. Matt, in trying to reach Cal, slipped down on his knees. The men were sparring when time was called.

Second round—Cal struck short at Matt's face, then at his stomach. He then made a peculiar hit, which is characteristic of his style of fighting with both hands, and landed on Matt's face. This he repeated three times. The last time Matt, replied by swinging his left foot on Cal's chin. There was a hot rally, clinching and in-fighting at all times.

Third round—Cal began his two-handed game again, landing both on Matt's face at once and knocking Matt's head back. A blow at Matt's stomach fell short, leaving a gap opening which, if Matt, had taken advantage, might have saved him from defeat. He was too slow. The men came together in hard rally. Matt rushed Cal to the ropes, in fighting him. A hot exchange followed and sparring, then a clinch. After the break Cal went right and left, bang, bang, against Matt, and repeated the dose. Matt was bleeding at the nose when time was called.

Fourth round—Matt, rushed at Cal, and landed a flush left on his face, which Cal returned with interest. After some sparring, Matt, landed his left lightly on Cal's chin. An exchange of blows and a hard rally ensued just as time was called.

Fifth round—Both men seemed fresh. Cal, rushed at Matt, and landed a swinging left on his jaw, felling him to the floor. Cal, retired to his corner, but just before the two seconds expired Matt, got up. Cal, advanced and gave him another left-handed punch, and he fell against the ropes. Cal, again went to his corner. Matt, who was very groggy, rolled about the floor and got on his feet. A third time Cal, went up to him, Canache crying, "Swing your right," which he did, landing with crushing force on Matt's jaw, knocking him down and almost out. Matt, who, during the ten seconds that Cal was in his corner, was crawling around the floor, finally got up, and received another knockdown just as time was called. Frazier wanted to throw up the sponge, but Halse would not.

Sixth round—Matt, came up groggy, and tried to spar, but Cal, swung his right on the jaw, and Matt, went down and out, the round lasting fifty seconds.

Time of fight, twenty minutes and fifteen seconds. Queensbury rules governed, and the fight was with skin-tight gloves, for a \$1,000 purse.

A Desperate Four Round Fight.

SHAMOKIN, Pa., April 6.—A desperate prize fight of four rounds with skin gloves. Queensbury rules took place at 2 o'clock yesterday morning, in a club room, between Clipper Donohue, of Philadelphia, and Ben. Wilson, of Newark, N. J. Sixty people paid \$2 apiece to witness the contest. The stakes were \$100 a side, the winner to receive two-third gate receipts and the loser the balance. When Donohue and Wilson—who is colored—faced each other for the fight the audiences told the principals they were brought here to fight and they wanted no faking. In the struggle that followed, the spectators had more than enough. The contestants displayed much science, and slugged each other in a terrible manner.

First round—Four seconds after time was called Wilson had landed a right hand on Donohue's nose, causing the blood to spurt. He followed the blow by another, every one on his antagonist's forehead, causing the blood to flow, momentarily blinding the Clipper.

Second round—Both men responded readily. Donohue's face was swollen considerably and he was mad when the negro laughed at his appearance. The Clipper got in his work by planting his left on Wilson's eye, and two terrific ones on his neck, which brought him on his knees.

Third round—Both men gave a clever scientific display for two minutes. Their previous rushing had begun to tell, but before time was up there were some wicked blows given.

Fourth round—The combatants hammered each other in such a shocking manner that several persons left the room. At the close of the round Donohue's face was frightfully

battered, his left eye was closed, and he was barely able to see out of his right, and his face was covered with blood and bruises. Wilson was also bleeding profusely and his body covered with bruises.

When the next and last round was called, the men showed no signs of flinching. The blows given were light, both men being groggy. In the last minute of the round Wilson struck Donohue below the belt, and the referee gave the battle to the Philadelphia.

From Over the Ocean

Comes Cable Clickings of Current Events.

JOHN BRIGHT'S SUCCESSOR.

It Has Become Quite a Question in England's Affairs—Serious Damages Caused by High Waters—Boulanger Issues a Manifesto—Various Other Foreign News.

LONDON, April 6.—The feud between the Birmingham Tories and Unionists becomes more bitter daily. After an ineffectual attempt to secure harmony, Mr. Albert Bright, son of the late John Bright and the Unionist candidate for the vacant seat took his departure last evening for Italy, where he will remain until the election is over. This display of indifference on the part of the candidate, who was brought forward by the Unionists, to the exclusion of a Conservative, solely because he was the son of his father, will keep a large number of Tories from the polls and likewise induce many Unionists to stay at home.

The Gladstonians, meanwhile, are doing excellent preliminary work and it is not only possible but quite probable that the central division will next be represented by an out-and-out Liberal.

Boulanger Issues a Manifesto.

BRUSSELS, April 6.—Gen. Boulanger has issued a manifesto in which he says that in a plain sense the French alone will know how to deal with falsehoods and slanders. The government, he declares, has exerted from an infatuated parliament, consent to prosecute him before a court composed of his political enemies, not judges. The crimes imputed to him were well known when he was appointed minister of war, and therefore his colleagues in the ministry are equally guilty with himself. Nothing, he concluded, will turn him from the advocacy of an honest republic and the legal exercise of universal suffrage.

Serious Flood Damages.

LONDON, April 6.—The high state of the waters of the river Vistula continues. At no point has the water receding during the last week, and large numbers of houses have been undermined and worked by the rapid current. At Balenauk, Prussia, Poland, several buildings fell into the river and some of their occupants were drowned, while others were rescued with great difficulty and conveyed to the hospital seriously injured. The damage, direct and indirect, is very heavy.

They May Be Mistaken.

PARIS, April 6.—The action of the chamber of deputies yesterday in voting for the prosecution of Gen. Boulanger is viewed as a death blow to himself and followers by the Opportunists and Radical press.

The government will prosecute Henri Rochefort and Count Dillon for the connection with the Boulangerist party.

Comments About Boulanger.

BRUXELLES, April 6.—The North German Gazette commenting on Gen. Boulanger's flight to Brussels, says: "This latest retreat will not increase his prestige. He would rather play the role of a pretender than submit to arrest."

Another Letter From Stanley.

LONDON, April 6.—The Royal Geographical society has received a letter from Henry M. Stanley. The letter relates chiefly to the geography of the portions of Africa through which Stanley passed on his march to Emin Pasha's province. It will be read before the society on Monday evening.

Sentences Reduced.

BRUXELLES, April 6.—At Boile, yesterday, the appeals of Joseph R. Cox, member of parliament for East Flanders, and Mr. Tully, editor of The Besconcom Herald, were heard. The sentences of both were reduced from four months to six weeks without hard labor.

Officers Not to Blame.

BRUSSELS, April 6.—The officers of the steamship Contreuve de Plauders, which was sunk in the English channel on Saturday last, have been fully exonerated of the charge of negligence by the commission appointed to investigate the disaster.

Damaging Storm in Hungary.

VIENNA, April 6.—A terrible storm has swept over a large section of southern Hungary. Many houses have been demolished, and in some cases whole villages have been set on fire by lightning and destroyed.

Foreign Notes.

The Nile is rapidly falling.

Two earthquake shocks were experienced in Santiago de Cuba on Friday last.

The king of Holland has had another collapse and his death is expected at any moment.

It transpires that M. Boulanger, late assistant professor, informed Gen. Boulanger two weeks previous to the latter's flight that the government intended to arrest him.

A member of the government will go to Birmingham to deliver speeches in behalf of Mr. Bright, candidate for the parliamentary seat made vacant by the death of his father. This indicates an end of the Conservative-Unionist feud.

The marriage of Prince Frederick Leopold of Prussia, the only son of the late Prince Frederick Charles, with Princess Louise of Augustenburg, the sister of the German empress, is to take place at Potsdam towards the end of June.

No Startling Change.

Business Remains About the Same as Last Week.

WEEKLY REVIEW OF TRADE

An Increase in Railroad Earnings Over Last Year—Trade at Interior Points Reported Dull—A Small Decline in Wool. Wheat Lower—Bright Prospects for the Near Future.

NEW YORK, April 6.—R. G. Dun & Company's weekly review of trade says: The course of events has not changed. Prices continue to sink, though the volume of trade, both domestic and foreign, continues large. Railroad earnings show an increase of about 15 per cent. over last year for March, so far as reports have been received, and yet stocks are lower and some have been sharply depressed, though at later quotations partial recovery is seen.

Trade at interior points is pronounced dull or quiet in nearly all cases, though at Cleveland it is fairly satisfactory and clearly larger than last year. At Atlanta it is satisfactory, with spring business well sustained; at Omaha it is considered good; at Kansas City improving, and at St. Paul trade in dry goods and clothing is very active. There is also some improvement noted at Detroit, particularly in ship building and lumber is firmer. Philadelphia contracts larger building operations than ever, and real estate transactions, of four million for March, with declines in the drug, liquor, tobacco, cattle, iron and coal trades, though some activity is seen in structural iron and a better feeling in dry goods. The money markets are easy, with light demand at nearly all points, and collections, though generally rather backward have improved somewhat at Kansas City and Detroit, but have fallen off at Atlanta.

Wool has declined for nearly all qualities except New Mexican and Texas, which are a shade stronger, the average of 10.4 quotations is 24.8 cents, against 23.1 cent. March 1. But it is thought that the outlook is favorable for a good demand when the new clip appears, unless manufacturing should continue unprofitable. Depressing influences are felt in the several branches of the dry goods and clothing trade not the least being the accumulation of stocks which the open winter left unsold. The demand for wools is very moderate and orders for importation are restricted. Cottons are dull and print cloths weak at 3.47 cents for 61s. But raw cotton is an eight stronger, the export demand is not in excess of last year's.

In the iron market more pressure is realized is seen here and at Philadelphia, and southern iron is offered at fifty cents to \$1 below the corresponding northern grades; bar iron remains very dull, and rails have sold moderately without lifting of prices. The allotment for the year has been increased 300,000 tons.

In the coal market no improvement appears, and between the effects of an open winter, and the war between the companies and the individual operators who underbid at auction, the situation is discouraging to those who are trying to maintain prices. The sale of copper abroad at about forty-one pounds per ton, with no amount of settlement between the syndicate and producers, causes stagnation here, and while lake is sold at 15 1/2 cents for April, the quotations for G. M. B. July is only 10.05 cents. Oil has been comparatively inactive and a shade higher, but pork fifty cents lower.

Prospects to sell abroad and fear of military troubles growing out of the Paris difficulty, have reduced the price of coffee half a cent, though a stronger feeling was afterwards shown. The average price of all grades of hogs has again declined over half of 1 per cent, for the week, making the fall since March 1 fully 2 per cent, and since January 1 over 5 per cent.

The most important change is the fall of two and five-eighths cents on wheat, which naturally weakens as the dream of expected famine gives place to the realization of large unsold stock on hand. Reports from growing and sowing regions continue to fore-shadow a large yield this year, and the demand from abroad, though better since prices fell, has not been enough to promise a clearing of the surplus stock on hand. Corn has advanced one and a half cents, export demand continuing, and oats a fraction.

The favorable crop prospects, though disheartening to speculators, tend strongly to sustain the confidence of those who look for improvement in all branches of legitimate business. The export business distinctly improves already, and for the past five weeks the value shipped from this port aggregates \$31,070,000 against \$25,901,000 for the same weeks last year. Meanwhile, in part, because of changes in treasury rulings are expected, imports have of late been a little smaller than last year.

The apprehension of stringency in the money markets about April 1 has now passed, and the heavy liquidation in securities on foreign account causes as yet no much withdrawal of foreign capital as has been feared. Distinct as to some American securities does not yet seem to have prevented continued investment of foreign money in other securities, in loans of many kinds, and in industrial enterprises.

The generally prevailing belief that, in spite of the present low prices, the business of the country is to be on the whole prosperous this year, and that large crops will revive trade of all kinds, has its natural effect upon the minds of those who find no more promising field for investment abroad. Secretary Windom has made it clear that he will not at present pay 105 for four-and-a-half per cents, or purchase four per cent, in preference, and during the past week the treasury has taken in about \$1,300,000 more money than it has paid out.

Business failures during the last seven days number, for the United States, 157; Canada, 25; total, 222, as compared with a total of 245 last week, 249 the week previous to the 24th, and 227 for the corresponding week of last year.

The Rochester Street Car Strike.

ROCHESTER, N. Y., April 6.—The street car strike continues, but the company are running more cars today than yesterday.

—Miss Lobbie Brown, of Sidney, is spending a few days in this city, the guest of J. M. Swisher and family, on north Main street.

—Walt Morrow, a well known farmer, residing a few miles east of town, is reported as being dangerously ill with stomach trouble.

—Make your contracts for ice with the Marion Ice Co. and secure the best lake ice. Leave orders at Marion Bazaar, opposite postoffice.

—Andrew Clark left for Poplar the morning, where he expects to make his future home. He will move his family to that place in the near future.

—Norris & Christman had the misfortune to have a kiln fall at the Oak Hill Lumber Works Friday. Workmen are engaged night and day in repairing, for time is precious now, and the full capacity of all kilns is sorely in need to supply orders.

—A number of Miss Gertie Schuler's friends met at the City Hall Friday evening, and enjoyed a social time. A large number of spectators were present, who were invited to see in the dance, which day did, and all had an evening of it.

—John Barram returned from a trip to the city, where he had been to deliver an address before a convention of the P. O. K. K. P. fraternity, in regard to the constitution of their constitution. We learn that he was decidedly in his favor.

—The crowd at the Marion Hall Friday evening was beyond the capacity of the hall. Prof. Gentry and his troupe of three gave a satisfactory performance. It was difficult to conceive of the number of patrons required to bring such a large crowd. Their exhibition of acrobatics and stunts has a tendency to put in evidence of their talents with the whole community. The professor appeared in a new costume, with his famous family, and the act was the happiest when obeying his commands. The special performance of several of the dogs are rarely if ever equaled.

observed?

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.

Name two conditions which may cause an
organ to be diseased.
